Fall 2020

Dear Winter Storage Client:

Enclosed is your winter storage contract for 2020-2021. Please complete the contract in full, sign both the front & back and return same as soon as possible with a \$500.00 deposit. Please provide your credit card information on the contract as well.

Reservation for winter storage is A MUST. We cannot guarantee space if the fully executed contract and deposit are not received by October 1, 2020.

With the closing of some local boat storage facilities, we are going to have more requests for storage than we can accommodate. We cannot stress enough the importance of returning the enclosed contract in a timely manner.

We call your attention to paragraph one (1) on the reverse side of the contract. **Outside labor is prohibited.** Outside labor is defined as anyone not employed by WMC such as marine contractors & people that are employed by the boat owner.

All boats stored on land or in the water for the winter must have HULL & LIABILITY INSURANCE IN EFFECT.

As a condition of acceptance of a yacht 35' & up LOA for storage, owners must agree to contract with WMC for work beyond normal storage at a minimum of \$600. Examples of additional work are winterizing, shrink wrapping, bottom painting, waxing, spring commissioning or re-fit projects. These examples meet the requirement for work beyond normal storage.

Any activity that generates contaminants, such as paint chips or paint dust, must be done according to DEC regulations. Power sanding must be done with a vacuum attachment. A tarp must be placed beneath the boat to catch dust, chips & paint drips, which must be vacuumed and disposed of properly. The goal is to eliminate waste from reaching our waterways. Strict adherence to the above rules is mandatory. There can be absolutely no wet sanding of bottoms in the marina.

If you plan to sell your boat and would like Willis Marine Center to act as your broker, please let us know prior to hauling, so that your boat can be positioned in a visible location, as space permits. No outside brokers are permitted to list boats at WMC.

We will be happy to quote on improvements you may be contemplating such as electronics, carpentry, Awlgrip hull painting, roller furling, autopilots, refrigeration, re-powers, generators, bow thrusters, air conditioning, etc.

Please call us with any questions.
